

All New Low

The Hellcopters

Lookin' up from your wayside ditch now
Lookin' up from the pitch black hole in the ground
There's only one place left for you to go
Uncharted territories will unfold

When you go
Down an all new low again
An all new low again
Down an all new low
And you go down again

You keep on pushin' but you don't know how now
If they see fit they're gonna hit you to the ground
Keep hopin' but you're in the know
They've got 'em lined up and you'll come to blows

When you go
Down an all new low again
An all new low again
Down an all new low
And you go down again

Lookin' up from your wayside ditch now
Lookin' up from a pitch black hole in the ground
There's only one place left for you to go
Uncharted territories will unfold

When you go
Down an all new low again
An all new low again
Down an all new low
And you go down again

And you go
And you go
Yeah, you go
Down on an all new low again
