

Go Easy Now

The Hellacopters

The ship has sunk and hit rock bottom
We played our parts not very well
So it has come to an end
We wanted blessings and we got 'em
But there's no sequel, no part three for us to attend

So cut us some slack now would you
We can't be taking it back so could you
Go easy now, on your own
Well, could you go easy now, on your own

It's getting close, it's drawing nearer
It's coming down hard
But it's not like it's a big surprise
And as I look at myself in the mirror
It's too late to say, I'm sorry, to apologize

So cut us some slack now would you
We can't be taking it back so could you
Go easy now, on your own
Well, could you go easy now, on your own, on your own

Ah, take me down to my maker
Hands put together and on bending knees
Is there a way that I can break or alter this low down deal

Cut us some slack now would you
We can't be taking it back so could you
Go easy now, on your own
Well, could you go easy now, on your own
Oh, now, could you go easy now, on your own
