

# Heaven

## The Hellacopters

On the day my love was born  
The sun was shinin'  
The air rarified and warm  
The moon, the planets, and the stars  
Came to look at her lovely form

And heaven and earth  
Body and soul  
Woman and man  
We're one not two yeah

When my little queen was just 14  
Prettiest little bird you ever seen  
Hand and hand she walk with me  
And where she is the grass turns green

And heaven and earth  
Body and soul  
Woman and man  
We're one not two yeah

I heard that one and one was 3 not 2  
Well that may be but now one thing is true  
Heaven and earth are always closer when i 'm with you

Yeah my woman she 's a lovely child  
She melts the ice every time she smiles  
The birdies sing when they hear her voice  
And the flowers bloom when they see her eyes

And heaven and earth  
Body and soul  
Woman and man  
We're one not two yeah
