

## Long Gone Losers

The Hellacopters

Hey wait up  
Would you mind steppin' in here  
Sure now what seems to be the problem dear  
I just wanna get down and take a look at your ass  
Well here you go, do you think it's pretty  
He goes "Don't be so cocky, I'm just doin' my job"  
Well your job's fucked up  
Don't say you're sorry 'bout it Bob  
You're enjoying every second and you're not the only one  
And it makes me feel real shitty

You got them long gone losers everywhere  
You got them long gone losers

Down by the corner there's a well dressed man  
"Don't worry 'bout it kid, I will help you if I can"  
But I know 'bout their schemes and I know 'bout their  
plans  
You got 'em runnin' 'round in this city

They're all around me always been  
Keep on knocking sayin' let me in  
They're all around  
You got them fucked up losers again and again  
They've been 'round since Bob knows when  
I know 'bout their schemes and I know 'bout their plans  
They're all around to make us feel real shitty
