

Long Gone Losers

The Helicopters

Hey wait up
Would you mind steppin' in here
Sure now what seems to be the problem dear
I just wanna get down and take a look at your ass
Well here you go, do you think it's pretty
He goes "Don't be so cocky, I'm just doin' my job"
Well your job's fucked up
Don't say you're sorry 'bout it Bob
You're enjoying every second and you're not the only one
And it makes me feel real shitty

You got them long gone losers everywhere
You got them long gone losers

Down by the corner there's a well dressed man
"Don't worry 'bout it kid, I will help you if I can"
But I know 'bout their schemes and I know 'bout their
plans
You got 'em runnin' 'round in this city

They're all around me always been
Keep on knocking sayin' let me in
They're all around
You got them fucked up losers again and again
They've been 'round since Bob knows when
I know 'bout their schemes and I know 'bout their plans
They're all around to make us feel real shitty
