

# Make It Tonight

The Hellacopters

I'm out but it ain't too late  
Like i want it to be you know i just can't wait  
For the darkness to tuck me in  
So go turn off the lights and let it begin

Make it tonight and turn off the lights  
Make it tonight - i'm so ready to make this day turn  
night

Got a roach crawling up my chin  
Radiation burning holes in my skin  
From a rusty can i drink sand  
The cold breeze of the night is what i want to land

Make it tonight and turn off the lights  
Make it tonight - i'm so ready to make this day turn  
night

I'm out on the street today  
But the bright lights are getting in the way  
Of the darkness i hold so dear  
If you can't turn 'em off then get me out of here
