

# Put Out The Fire

The Hellacopters

Put out the fire and set me free  
Put out the fire and help me let it be  
Can't let it go on or it will take me to some end  
I can't right all these wrongs or make amends

Maybe your mind works different than mine  
Maybe your mind is of another kind  
The things that you do the things you hear and see  
Maybe it's you and not me

Put out the fire stamp out the glow  
'Fore the stakes get any higher  
You know i know that i should know

The fire's still raging and i've counted to ten  
Hold my breath and i'm waiting  
Want to exhale but don't know when

Can't seem to put it out  
Keep trying though i am in doubt  
I've drained the oceans dry but i cannot put it out

Put out the fire help me turn it around  
I fought it with fire but it only scorched the ground

Can't seem to put it out  
Keep trying though i am in doubt  
I've drained the oceans dry but i cannot put it out

Put out the fire and set me free  
Put out the fire and help me let it be  
Put out the fire help me turn it around
