

## Mad Man

The Hives

Mad man he operated, he opened up went in and seperated.  
he mad a mess - tried to restore but it was all in vain.  
That's what I get when the holding th knife answers to the name  
.

Mad mad mad.

Mad man he operated, and what I before used to have in mind has  
now evaporated.

Mad man woke me up and said he'd fixed the leak  
but now I can't walk and I believe I stu..stu..stutter when I s  
peak.

Mad mad mad.

I get the feeling that I've been cutdown - cutdown.

Yeah I get the feeling that I've been cutdown - cutdown.

In a sort of scientific way.

Mad man he operatedf, he opened up went in and seperated.

He made a mess - tried to restore but it was all in vain.

That's what I get when the one holding the knife answers to the  
name.....
