

Midnight Shifter

The Hives

You do your time, tow the line
Wading through the water heading for the wine
Throw your pearls for swine, break your spine
You'll never reach a hundred doing 99
You gotta lift your chin to see what comes up ahead
Before the casket slams shut and the fat lady's dead

But if I do do do all I can
Tomorrow comes a chance
And if I do do do all I don't
There's no reason it won't
I'm gonna sit right down, I'm gonna count to four
So hand it over a couple million or more!

Said I know you gotta work hard, working hard every day
Midnight shifter
Said I know you gotta work hard, working hard every day
Midnight shifter

Surprise surprise, I got wise
When you get up in the morning I just close my eyes
No dos or dies are worth the price
Cause once you hit the floor they cut you down to size
No don't get me wrong we could be one in the same
But there's a difference in the way that we're playin'
the game
Never let no one be no boss over me
You work in chain, but my thinking is free

Cause if I do do do all I can
Tomorrow comes a chance
And if I do do do all I don't
There's no reason it won't
I'm gonna sit right down, I'm gonna count to four
So hand it over a couple million or more!

Said I know you gotta work hard, working hard every day
Midnight shifter
Said I know you gotta work hard, working hard every day
Midnight shifter
