

# Take Back The Toys

The Hives

Take back the toys that you've given me  
I never knew what to do with them anyway  
I never knew how to break out the box  
I sink the pebbles and boulders and blocks

So take back the toys that you threw my way  
I never knew what to do with them anyway  
I never knew how to break out the box  
I guess the tables were served on the rocks

I've been down on the beaten track  
Just holding on, holding up, holding back  
Given not what I've got but of what I lack  
I guess that's what we've been taught all along  
It's the time for poison in the locks that I got for free  
And I've been pumping the pills placed in front of me  
But I've had enough baby I'm breaking free  
I never knew why it would take me so long

Take back the toys they are destroying me  
Hear what I say? I say  
Take back the toys that you've given me  
I never knew what to do with them anyway  
I never knew how to break out the box  
I sink the pebbles and boulders and blocks

Open my eyes to what I despise  
And in fourteen seconds or more I tear it down

You see they give you toys just to distract  
And then they break your mind so they can break your back  
Got you in so much that you can't pay it back  
And that's the way that it has been for far too long

Take back the toys they are destroying me  
Hear what I say?  
Take back the toys that you've given me (Take back the toys)  
I never knew what to do with them anyway (Take back the toys)  
I never knew how to break out the box (Take back the toys)  
I sink the pebbles and boulders and blocks (Take back the toys)

So take back the toys that you've given me (Take back the toys)  
I never knew what to do with them anyway (Take back the toys)  
I never knew how to break out the box (Take back the toys)  
I guess the tables served on the rocks (Take back the toys)
