

Uptight

The Hives

People it's not alright, feeling too uptight
But when we're faced with this
we gotta get going through the night

Too much is surround, sitting in holy ground
But whatever you're faced with
tonight you'll dance to whatever to your favorite sound

You gotta be there to know what I'm talking about
You gotta be there to know what I'm singing about
Oooooohh

Just do the things you want, just do the things you need
Time flies like this and we gotta get it going indeed

All the damn people flood our stream and we're just in a dream
So tonight you're best to get together for future of the scene

You gotta be there to know what I'm talking about
You gotta be there to know what I'm singing about
Oooooohh

Oh yeah!
Oh yeah!

Tonight you'll dance to whatever to your favorite sound
Tonight you'll dance to whatever to your favorite sound
Tonight you'll dance to whatever to your favorite sound
Tonight you'll dance to whatever to your favorite sound
