

# Massive Night

## The Hold Steady

The guys are feeling good about their liquor run  
The girls are kinda flirting with the setting sun  
We all kind of fumbled through the jitter bug  
We were all powered up on some new upper drug  
And everything was partying  
Everyone was pretty  
And everyone was coming towards the center of the city  
The dancefloor was crowded, the bathrooms were worse  
We kissed in your car and we drank from your purse  
I had my mouth on her nose when the chaperon said we were dancing too close

We had some massive nights  
We got the songs just right  
And all i want is time  
Yea your friends are pretty cool and my friends were acting cool

There weren't any fights  
There's usually one or two  
Some guys they get a little bit uptight  
Some girls they got something to prove  
We had some massive highs  
We had some crushing lows  
We had some lusty little crushes  
We had those all-ages hardcore matinee shows

And i was down on my knees when the chaperon said that it was time for me to leave

We had some massive nights  
Every song was right  
And all i wanted was time  
Yea your friends are pretty cool and my friends were acting cool  
There weren't any fights  
There's usually one or two  
Some guys they get a little bit uptight  
Some girls they got something to prove

We had some massive nights  
There were some massive nights  
We had some massive nights  
Every song was right  
And all i wanted was time  
Yea your friends are pretty cool and my friends were acting cool

She had a gun in her mouth  
And she was shootin' up at her dreams  
When the chaperon said that we'd been crowned  
The king and the queen
