

# The News From Nowhere

The Hoosiers

This is the news from nowhere:  
The world could end for all I'm aware  
We're all available but no-one cares  
We all live and die in nowhere

No-one will ever know exactly what this means to me  
No-one  
No-one will ever know exactly what you do to me  
No-one

This is the news from nowhere:  
I burst into flame for all that you care  
These are thoughts of which I'm scared  
I caught your eye but couldn't hold it there

No-one will ever know exactly what this means to me  
No-one  
No-one will ever know exactly what you do to me  
No-one

I doubt this means that much to anyone  
I hope this means something to you  
I doubt this means that much to anyone  
I know this means too much to me  
I doubt this means that much to anyone  
I hope this means something to you

The clock won't strike in nowhere  
We live and die in nowhere
