

Count in Fives

The Horrors

Count

Yeah I count in fives.

I do it everytime.

And If another number confronts me

I will cut you in half.

Irrespective of the subject

I will make it apply,

no matter what the object

I will count in fives,

just tell me the location

I will stand outside...

Oh yeah,

if you give me too many

I will multiply.

Force too many into my hand and

I will not comprehend.

Oh yeah,

another number confronts me

and I force it to divide.

The first time with someone holding my hand. The second, me holding it out.

Tally tally.

Oh yeah,

if you try to deceive me

I felt it burn in my hand.

Now watch the numbers run to me as

I count them in fives
