

Trouble In Mind

The House of Love

So weighed down
Looking at your life
Trying to find a picture
All you get are lies
Just a cat in a tree
That's funny, but it's mean
All the trouble here is in your mind

She said it would do you good
You've got to get away
Driving to the country
Do it now today
You're just a fly on the wall
Looking at us all
The only trouble here is in your mind

Summer comes, any day
Get a job, take a strain
Do you hear me now?
Call it out
Do you feel me now?
Shout it out
When you kneel
Do you pray?
When you're wrong
Do you change?
This is life, you say

Everyone's trying to find the meaning of love
Looking for affection
Trying to find god
Everyone knows what everyone knows
When it gets like that
You've gotta go
Were you stoned in your head?
Were you drunk when you said
The only trouble here is in your mind

Summer comes, any day
Get a job, take a strain
Do you hear me now?
Call it out
Do you feel me now?
Shout it out
When you kneel
Do you pray?
When you're wrong
Do you change?
This is life, you say

Everyone's trying to find the meaning of love
Looking for affection
Trying to find god
Everyone knows what everyone knows
When it gets like that
You've gotta go
Were you stoned in your head?

Were you drunk when you said
The only trouble here is in your mind
