

# Honey

## The Hush Sound

Spin your body around  
Now your feet are gonna hit the ground  
I am growing sleepless  
And you're out of lullabies

Honey, honey, honey  
You're the death of me  
Won't stop holding my hands down  
Baby, baby, baby  
You never let me...

You've got a dark heart  
You've got a cold kiss

You are my love, my love  
My love (You are my love)

Everybody's breaking  
Every time you start shaking  
Don't come calling my name  
Everybody's falling  
Every time you come a calling  
I want you to know

Honey honey  
You were the first one  
Darling darling  
Around my door  
Honey honey  
You'll never let me...

You've got a dark heart  
You've got a cold kiss  
You've got a dark heart  
You've got a cold kiss

You are my love, my love  
My love (You are my love)

Always turning back to you  
'Till you never let me down  
Loving your illusion  
Staring at a crooked crown

(Ah ah ah ah)  
You always let me down  
(Ah ah ah ah)  
You always let me down  
(Ah ah ah ah)  
You always let me down  
(Ah ah ah ah)

You are my love, my love  
My love (You are my love)

Honey, honey, honey  
You're the death of me

Honey, honey, honey  
Will you ever see?
