

Honey

The Hush Sound

Spin your body around
Now your feet are gonna hit the ground
I am growing sleepless
And you're out of lullabies

Honey, honey, honey
You're the death of me
Won't stop holding my hands down
Baby, baby, baby
You never let me...

You've got a dark heart
You've got a cold kiss

You are my love, my love
My love (You are my love)

Everybody's breaking
Every time you start shaking
Don't come calling my name
Everybody's falling
Every time you come a calling
I want you to know

Honey honey
You were the first one
Darling darling
Around my door
Honey honey
You'll never let me...

You've got a dark heart
You've got a cold kiss
You've got a dark heart
You've got a cold kiss

You are my love, my love
My love (You are my love)

Always turning back to you
'Till you never let me down
Loving your illusion
Staring at a crooked crown

(Ah ah ah ah)
You always let me down
(Ah ah ah ah)
You always let me down
(Ah ah ah ah)
You always let me down
(Ah ah ah ah)

You are my love, my love
My love (You are my love)

Honey, honey, honey
You're the death of me

Honey, honey, honey
Will you ever see?
