

Emily  
She don't know what she's done to me  
I swear that she is the one for me  
But she'll never know  
Unless I tell her so

Emily  
Yeah she's got everything  
She's all I need  
Yeah she's the reason I sing  
But she'll never know  
Unless I tell her So  
And when she falls asleep  
I hope she dreams of me

No oh I can't get over the way  
My heart it breaks when she don't want me to stay  
No oh I can't get over the games  
You come back you leave well don't come back to me

And so I wrote her off for then  
'Cause I just couldn't take it all again  
But baby honestly  
I still thought about  
If we could've worked it out  
I'll take you just the way you are  
I'll never ever break your heart

No oh I can't get over the way  
My heart it breaks when she don't want me to stay  
No oh I can't get over the games  
You come back you leave well don't come back to me  
I want you back when you leave well just come back Emily

Emily  
She's got everything  
She's all I need  
Yeah she's the reason I sing  
And when she runs away,  
No don't you run away  
I'll take you just the way you are  
I'll never ever break your heart

No oh I can't get over the way  
My heart it breaks when she don't want me to stay  
No oh I can't get over the games  
You come back you leave well don't come back to me  
I want you back when you leave well just come back Emily
