The Icarus Account

Emily
She don't know what she's done to me
I swear that she is the one for me
But she'll never know
Unless I tell her so

Emily
Yeah she's got everything
She's all I need
Yeah she's the reason I sing
But she'll never know
Unless I tell her So
And when she falls asleep
I hope she dreams of me

No oh I can't get over the way
My heart it breaks when she don't want me to stay
No oh I can't get over the games
You come back you leave well don't come back to me

And so I wrote her off for then
'Cause I just couldn't take it all again
But baby honestly
I still thought about
If we could've worked it out
I'll take you just the way you are
I'll never ever break your heart

No oh I can't get over the way
My heart it breaks when she don't want me to stay
No oh I can't get over the games
You come back you leave well don't come back to me
I want you back when you leave well just come back Emily

Emily
She's got everything
She's all I need
Yeah she's the reason I sing
And when she runs away,
No don't you run away
I'll take you just the way you are
I'll never ever break your heart

No oh I can't get over the way
My heart it breaks when she don't want me to stay
No oh I can't get over the games
You come back you leave well don't come back to me
I want you back when you leave well just come back Emily
