

# Girls Like You

The Icarus Account

Girls like you girls like you  
Yeah I stay away from the girls like you

I took the highway to my home state  
Through the great lakes yeah I was too late  
But like a season she will leave him  
Like she left me for no reason

Yeah, yeah

You build me up just to break me down  
Throw out a line just to watch me drown  
But I won't be fooled by the things you do  
I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you  
Yeah, yeah  
Girls like you girls like you  
Yeah I stay away from the girls like you

Broken headlights from your late nights  
Covered in lies with your new find  
But like a fever he will leave her  
And when she starts to cry I hope she closes her eyes  
And just remembers when she took him over me those nights

You build me up just to break me down  
Throw out a line just to watch me drown  
But I won't be fooled by the things you do  
I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you

And I don't need you honey  
I can wait for love  
Come on where's your faith?  
Well I got just enough  
I got just enough  
Yeah I got just enough

You build me up just to break me down  
Throw out a line just to watch me drown  
But I won't be fooled by the things you do  
I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you  
Girls like you girls like you  
Yeah I stay away from the girls like you

From the girls like you  
From the girls like you  
From the girls like you  
From the girls like you

From the girls like you  
From the girls like you
