

Party The Baby Off

The Icarus Line

If everybody's trying to die, get it on,
take your pills to the bathroom and cry.
Told her not to sleep on her side.
She sleeps and winks and I think I know what stinks.
Alone, I'm getting confused.

Mom, I live in hell.
Speak slow so I can say.

Told her I was trying not to lie
but motherfuckers do what they have to
beats your face black and blue.

Mom, I live in hell.
Speak slow so I can tell
just to see it through,
let's see some dedication
it's the kind of thing I love
tonight
take off all your clothes
take off all your clothes
you take too much pills
but still pay the bills
I can excuse that
where did the cat go?
Legends come then they go
here we come, here we go
take off all your clothes
take off all your clothes...
