

# I Still Want You

The Icicle Works

(McNabb)

Yesterday I saw you walking with your new man,  
I know it's been the longest time, I hope you understand,  
I couldn't stand to see you there, or look into your eyes,  
Now that all the hurt is gone, I've come to realise, realise...

I still want you  
I still want you

All the time I think about the way it used to be,  
Only good, never bad, the time between you and me,  
If the love you're walkin' with is comin' to an end,  
Turn around, don't turn me down,  
Just let me be your friend, be your friend...
