Who Do You Want For Your Love?

The Icicle Works

(McNabb)

I'm not yet convinced that pride will come before a fall I have seen you standing in your Sunday best and all Waiting for a fool to take you further than you are Given time you'll finish every heartache that you start Chorus: Who do you want for your love Better make up your mind 'cos time is passing You'll be left behind Who do you want for your love Better make up your mind 'cos time is passing Who do you want for your love How can I deny that I would take you for my own Love to play the loner till I find myself alone Perhaps your indecision speaks of why I've tried for so long Talk about you, sing about your brown eyes in a song Repeat Chorus Could you make that move embrace that certain moment When you know you're on your own, lose those apron strings Dance and sing I know 'cos I've been there, let me tell you it's no party When you're lost, count the cost, falling on someone is not the answer

Repeat Chorus
