

Big God

The Imperials

My God's a big God
He walks among the mountains
My God's a big God
He rises from the sea my God's a big God
The stars surround his shoulders
My God's a big God but small enough to live in me

My God's a strong God he made the mighty mountains
My God's a strong God but he holds me gently in his hands

My God's a loud God his fingers snap like thunder
My God's a loud God he rocks the hemisphere
My God's a loud God he echoes through the ages
My God's a loud God but he whispers softly in my ear

My God's a big God he walks among the mountains
My God's a big God he rises from the sea
My God's a big God the stars surround his shoulders
My God's a big God but small enough to live in me

My God's a strong God he made the mighty mountains
My God's a strong God but he holds me gently in his hands
My Gods a loud God his fingers snap like thunder
My God's a loud God he rocks the hemisphere
My God's a loud God he echoes through the ages
My God's a loud God but he whispers softly in my ear

Chorus
