

Heed The Call

The Imperials

When the Spirit tries to move you, heed the call
And when the devil tries to confuse ya
You gotta build a holy wall
And the good Lord is watching to see
If we are listening to His Word
And there is no one more disappointed
If we act like we haven't heard

Chorus:

We gotta heed the call, brother
We gotta heed the call, sister
Everybody one and all, heed the call
And if faith is the only reason to heed the call
We must follow right down to the letter
'Cause we no other reason at all
For there is someone watching over
Every move we make
And there is someone watching closely
To make good every chance we take

Chorus

And if He asks you to sell your riches
And give away all your wealth
I can promise you He's got something greater
Than you or I know ourselves

Chorus

(repeat)
