

Keep In Mind

The Inchtbokatables

Don't forget what you haven't done
During world war II around you
Don't forget what you couldn't see
Cos your eyes were almost closed.

Don't forget what you haven't done
With all the people dying
Don't forget when their souls will show up
They ask you where you were

Don't forget that you're guilty too
Of all those crying children
Don't forget that you're guilty too
For their parents won't come back

Hey grandpa please tell me what you did
Couldn't you stand up against this shit

Couldn't you scream with all the power
Of your lungs
How couldn't you use your human chance

Hey grandma

Keep in mind what you haven't done
