

## Turquoise Blue

The Incredible String Band

On the white sand a footprint  
On her back the golden sun  
Is playing tunes on this lazy afternoon  
It's high summer  
The sun's playing tunes  
They're so beautiful to see  
Only love can sing the harmony

Oh my lover  
She knows how to give a gift  
She knows how to make a cool breeze sigh  
Brings the warmth of summer to my bed at night  
And she brings the colour of the sky too  
Turquoise Blue

In the distance the birds sing  
In the distance the sweet echoing  
Of the flute she's playing  
On the hazy air  
Over there  
Oh shimmering day don't take me away  
I'd rather be here than anywhere
