

The walls are closing in on me  
I'm getting dizzy and it's hard to see  
My lungs are heavy and it hurts me to breathe  
Can't lift my head, stare at my feet  
It's all getting clear  
You tell me I don't want to hear  
I know you see my eyes the fear  
I clench my teeth and shut my ears  
I've tried it all and I'm sick of fighting  
The words of the truth made clear in writing  
Oh, Lord deliver me!  
I want to be free so I may mount up on wings  
For once I don't feel so dead  
I can breathe again and lift my head  
No longer bound to a life once led  
True to everything he said  
I want to fly all around  
And not look back or touch the ground  
I want to fly up so high  
And look deep into your eyes  
Gravity means nothing to me  
Just another lock broke free  
Against my face the wind will blow  
To the world your glory shows  
I'm tired of Satan's attacks  
Get the devil off my back  
Down the tunnel I see the light  
Nevermore will I have to fight!  
Oh, Lord deliver me  
I want to be set free  
I want to fly so high  
Look deep into your eyes
