

A Northwest Passage

The (International) Noise Conspiracy

Hey my sister where have you been?
I've been looking all over for you in this world where we don't
fit in

Hey my brother where have you gone?
I've been trying to recognize your face in this world where we
don't belong

There is a light that shines on everyone
Shines on me and it shines on you
There is a light that shines on everyone
One day I'm gonna have to see it through

Yeah that is what I say - I'm gonna try to find a new way
Yeah that is what I see - a northwest passage for you and me

Hey my comrade strike a pose for me
Overheard you talking about resistance and other things that mi
ght set us free
Hey my lover cuddle up inside
I wanna hug you then I wanna kiss you wanna make you mine tonig
ht

Yeah that is what I say - I'm gonna try to find a new way
Yeah that is what I see - a northwest passage for you and me

I blow my mind for you everyday
Turn on your love lights and let them shine on me

Hey my sister where have you been?
Hey my brother we don't fit in

There is a light that shines on everyone
Shines on me and it shines on you
There is a light that shines on everyone
One day I'm gonna have to see it through

Hey my sister
Hey my brother
Hey my comrade
Hey my little love

There's a light that shines on everyone
