

A Small Demand

The (International) Noise Conspiracy

I've got a problem how to spend my time
Been subjugated to nothing for so long
That nothings really on my mind
Gotta make the connections
Between force of habit and habit of force
And when I get it, you know I'll get it, I'll know just what I
want

All we ever wanted was just everything
All we ever needed was just everyone
This is a small demand - it's a small demand
This is a small demand - it's a small demand
Yeah baby I can't believe that we are grateful for the shit we
receive

I've got a problem a matter of direction
A question of needing the real things
Or just the reality of need
This control in motion
Which hunger are you trying to feed
Cause baby what you want isn't always what you need

All we ever wanted was just everything
All we ever needed was just everyone
This is a small demand - it's a small demand
This is a small demand - it's a small demand
Yeah baby I can't believe that we are grateful for the shit we
receive
