

Black Mask

The (International) Noise Conspiracy

Get ready to blend in to put it on and disappear
Soft fabric against the skin I could be anyone anywhere
Put it on put it on put it on I need something that can turn me
on

I wanna get that feeling

To have a brand new identity or to be no one at all this time
Does my eyes deceive me when I'm about to steal your mind
Put it on put it on put it on I need something that can turn me
on

I wanna get that feeling

Just give me a black mask
Just give me a black mask baby yeah

Put it on put it on put it on I need something that can turn me
on

I wanna get that feeling
