

## **(I've Got) Survival Sickness**

### **The (International) Noise Conspiracy**

Manifest this repression with smart bombs and easy listening  
Rally me up in this non-  
decision making, I've got my mind in for the taking  
My heart still hurts from last night  
Do you feel alright?

I've got survival sickness

Entertain me, the plot thickens, serve me up some of your good  
living  
A grand total of understatement, show me salvation and I'll hate  
it  
My heart still hurts from last night  
Do you feel alright?

I've got survival sickness

Do you know how it feels not to be wanted down here?  
Do you know how it feels not to feel at home anywhere?  
Do you know how it feels to live life down on your knees?  
Do you know how it feels to always say please?

My heart still hurts from last night  
Do you feel alright?

I've got survival sickness
