

## My Star

### The (International) Noise Conspiracy

In an instant it flashes by  
That magic moment that can change a life  
We're children of the same sign and time  
Born to boredom and blank minds  
I tell myself that it isn't real  
Cause how can you ever get ready for how good a kiss could feel

You could be my star  
That's what you are - you could be my

Send an angel before it is too late  
Cause I need help to find the gate  
Please put your spell on me  
Give me x-ray eyes so that I can see  
I tell myself that's what you have to do  
Cause I've been waiting all my days just to find someone like you

You could be my star  
That's what you are - you could be my

You could be my guiding light forever  
You could be my shining bright lover  
You could be my sweet soul saviour

You could be my star  
That's what you are - you could be my

You could be my guiding light forever  
You could be my shining bright lover  
You could be my sweet soul saviour
