

## Smash It Up

### The (International) Noise Conspiracy

I want to smash it up for all the workers who spent hours into nothing  
I want to smash it up for all my sisters who got caught up in this funky system  
I want to smash it up just like a locust, like a satellite shooting rockets  
I want to smash it up in every way I can, right now I think I want to be your man

Smash it up yeah, when I'm down

I want to smash it up for all the kids who got fucked up just like their parents did  
I want to smash it up, the gods and masters who made us die so much faster  
You know I wanna smash it up  
You know we gotta smash it up  
Come on pretty, smash it up  
Everybody right now, come on everyone

Smash it up yeah, when I'm down

I want to smash it up for all the people and for our right to be treated equal  
I want to smash it up for all my friends, I hope you stick around until the very end  
You know I wanna smash it up  
You know we gotta smash it up  
Everybody wants to smash it up  
Come on everyone, right now

Smash it up yeah, when I'm down

I want to smash it up
