

The Dream Is Over

The (International) Noise Conspiracy

Wait a second will everything turn out fine
Will we get what we're promised or are we just wasting our time
Tell me something what about living right now
Cause I can't believe that this is what we wanna be

We feel it right now - but baby it's not for me
We feel it right now - it's time to get up and leave
The dream is over you see it's not coming back to me

Just a minute it's not the life we wanted to get
Comes a little to late or baby we can't afford it
Maybe someday we won't be living as slaves
Cause I can't believe that this is what we wanna be

We feel it right now - but baby it's not for me
We feel it right now - it's time to get up and leave
The dream is over you see it's not coming back to me
