

# The Subversive Sound

## The (International) Noise Conspiracy

Tonight I'm going to testify that everybody's going to be alive  
I'm so sick of doing time so please won't you fill my mind  
Tonight I'm going to be alive down on the floor for another round

Like lips kissing in the moonlight  
Tonight I'm bound to testify to all of my love and all my life to you  
Grab my hand and hold on tight

We're all superstars, that's what we are  
96 tears and everything's in here for you

Tonight I'm going to feel alive licking your neck and doing fine  
Passion is the biggest crime, so come on down to the subversive sound  
Tonight we're going to feel the heat, right now between the sheets  
Lovers in here strike up the beat

We're all superstars, that's what we are  
96 tears and everything's in here for you
