

## The Way I Feel About You

### The (International) Noise Conspiracy

I wanna explode like the times when we were getting down  
Down under the pavement what do you think that we might find  
Oh baby what's the secret behind your smile  
Can you please show me now

I wanna make you feel the way I feel when I'm with you  
As simple as it seems all these dreams they're nothing new  
Oh, I want you to feel it to - the way I feel about you

Let us get corrupted by sin and the passionate new sound  
The sound of young lovers revolutionary babies on my mind  
Oh darling pick up a cobblestone and run  
And leave the old behind

I wanna make you feel the way I feel when I'm with you  
As simple as it seems all these dreams they're nothing new  
Oh, I want you to feel it to - the way I feel about you

I want to touch your heart  
I want to steal your soul  
Just like you stole mine from me

I wanna make you feel the way I feel when I'm with you  
As simple as it seems all these dreams they're nothing new  
Oh, I want you to feel it to - the way I feel about you
