

The Way I Feel About You

The (International) Noise Conspiracy

I wanna explode like the times when we were getting down
Down under the pavement what do you think that we might find
Oh baby what's the secret behind your smile
Can you please show me now

I wanna make you feel the way I feel when I'm with you
As simple as it seems all these dreams they're nothing new
Oh, I want you to feel it to - the way I feel about you

Let us get corrupted by sin and the passionate new sound
The sound of young lovers revolutionary babies on my mind
Oh darling pick up a cobblestone and run
And leave the old behind

I wanna make you feel the way I feel when I'm with you
As simple as it seems all these dreams they're nothing new
Oh, I want you to feel it to - the way I feel about you

I want to touch your heart
I want to steal your soul
Just like you stole mine from me

I wanna make you feel the way I feel when I'm with you
As simple as it seems all these dreams they're nothing new
Oh, I want you to feel it to - the way I feel about you
