

This Side Of Heaven

The (International) Noise Conspiracy

In every breathe there,
Is a promise of better days to come
In every whisper, there's reassurance
I'm not the only one

Cause I don't want to have to wait forever, hey hey
I want freedom on this side of heaven

We feel the Earth shake as we move
We want to taste the sensation
And there's no limit to what we can do
And now we've made that connection

It's finally coming, the changing weather
That we've been fighting for
First a great storm, then a sunrise
Could we ask for more?

Cause I don't want to have to wait forever, to find it
I want freedom on this side of heaven, I'm blinded

We feel the Earth shake as we move
We want to taste the sensation
And there's no limit to what we can do
And now we've made that connection

We feel the Earth shake, we feel the Earth shake

We feel the Earth shake as we move
We want to taste the sensation
And there's no limit to what we can do
And now we've made that connection

We feel the Earth shake as we move
We want to taste the sensation
And there's no limit to what we can do
And now we've made that connection
