## **Fastlane**

## The Internet

Drivin' in my car

Damn near cut me off

Now you're in the fast lane

So you better not slow me down

And I refuse to change my direction

So you best make up your mind

Before I get caught in the intersection

And minor traffic lights

We said that we'd make signals
Get right or get left
Don't seem like you're ready
So just get out of my way
Seventy in six
Get right or get left
Don't tell me you're sorry
Just get out my lane
Slowin' me down
Slowin' me down

And now we're moving faster
You're catching up to speed
And yes your car looks good to me
And you know it, don't try to speed off
Like I didn't teach you, well you know
Are you ready for the open road

We said that we'd make signals
Get right or get left
Don't seem like you're ready
So just get out of my way
Seventy in six
Get right or get left
Don't tell me you're sorry
Just get out my lane
Slowin' me down
Slowin' me down

Warning signs were there
But we never cared
So we crashed
And learned a lesson
And to take care of the damage
We need to admit that accidents happen
So if it's cool with you
I'll just be on my way
