

Cigarettes and sex are on your breath again  
It's cool, I'm the same, the way we kiss  
Girl you're special, I wanna protect you and I'll kill so you c  
ould live  
But when the first body went down, you wouldn't tell me that I  
know it again  
I'd rather lay it down and get back cuz killin' is a sin  
We're chillin' instead, give me a kiss

Girl

It not for me  
For the world

False arrest, unrest, was on the docket  
It's cool, at least that's what CNN says  
Girl you're special, I wanna protect you and I'll kill so you c  
ould live  
But when the last body goes down, it won't make any sense  
I'd rather lay you back, down on your back, then killin' and sh  
it  
Chillin' and shit, give me a kiss

Girl

It not for me  
For the world  
It not for me  
For the world  
For the world
