

Love Song

The Internet

What happened to make you, to make you start to hate me?
I once was your heart; worth love, and you were my? everything
Sometimes I wonder why I still try
Don't say it's over

'Cause we both know no ones perfect, baby, I feel like this could be worth it
Ohhh

'Cause I haven't felt much myself lately, what I got to do to get back my lady?
Ohh ohhhh ohhh ohh
