

# Partners In Crime

## The Internet

We can conquer the world  
Just you and me no one else  
Tell me if that's cool  
What chu wanna do  
Ahh Ohhh

Guns drawn in an all black car  
Bustin at all the lames  
Who got something to say about us  
We can rob this world blind  
And maybe next time  
They'll think twice  
Before they try fuckin with us

Just imagine what it be like be like  
If you and me ruled everything  
Would it be (Cool)  
Or Would it be cool

Can you imagine what it be like be like  
If you and me ruled everything  
Would it be (Cool)  
Or Would it be cool

If we would conquer the world  
Would you be down to roll with me  
Like partners in crime  
Til the end of time

Guns drawn in an all black car  
Bustin at all the lames  
Who got something to say about us  
We can rob this world blind  
And maybe next time  
They'll think twice  
Before they try fuckin with us

Just imagine what it be like be like  
If you and me ruled everything  
Would it be (Cool)  
Or would it be cool

Can you imagine what it be like be like  
If you and me ruled everything  
Would it be (Cool)  
Or Would it be cool
