Pupil / The Patience

The Internet

Hey hey Hey hey hey Hey hey

Going out I was on the road To places that you never know They asked us to put on a show So we go, fly away

The sky went to the South of France Switzerland to Amsterdam Traveling across the land Rain or snow, everyday

(2x):

I don't want to Think about you leavin' on me Hop up on me

You go away from me You go away from me

I'm sorry that I went away
Wipe the smile from your face
Soon I'll be back to save the day
This we know so don't you cry no no

I know you hate to see me go
But you should know you're not alone
I wish that you could tag along
But you know that I'm coming home

(6x):

I don't want to Think about you leavin' on me Hop up on me
