

# Tonight Is the Night (If I Had You)

The Isley Brothers

(Talking)

Tonight is the night baby  
You know for the first time in my life  
I think I found what I want

Tonight is the night, I wanna be with you  
You're the kind of woman, I wanna hold on to  
Come a little closer, let me show you how much I care  
Tonight is the night, please stay right here

Oh, life would be so sweet if I had you  
Don't you know that life would be so sweet if I had you

Let me show you a love you never felt before  
I'm gonna give you all that I have, and then some more  
Come on baby I know you want me to  
Kiss me this way and that way and this way baby  
Til I'm all over you

Life could be so sweet if I had you  
Life could be so sweet if I had you

Oh, tonight is the night  
(You know girl, I thought I seen it all)  
But you're something special, very special

And I've been all over the world, trying to find someone like you  
But for the first time in my life, I realize it wasn't so easy to do  
But now that I found your love, I want let you get away no  
Cause you're the sunshine that brightens up my day

Life would be so sweet if I had you  
Life would be so sweet if I had you

(Tonight is the night)  
I wanna be with you  
(Oh oh, tonight is the night)  
You got the kind of loving, I wanna hold on to  
(Oh oh, tonight is the night)  
Come a little closer and let me show you how much I care  
(Oh oh, tonight is the night)  
Tonight is the night, please stay right here

Oh Life would be so sweet if I had you  
Life would be so sweet if I had you  
If I had you girl, I'd know that  
Life would be so sweet if I had you  
Life would be so sweet if I had you
