

## What Would You Do? Pt. 2

The Isley Brothers

Welcome to the remix, welcome to the remix  
Welcome to the remix show, show, show  
Welcome to the remix, welcome to the remix  
Welcome to the remix show, show, show

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

If you had one time to take a trip  
One shot at paradise  
One chance to spend lots of money  
One chance to touch the sky

One time to make sweet love  
One shot of being a movie star  
A whole day to go on shopping sprees  
Ride around in a fancy car

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Now, if you had one chance to feel pleasure  
One chance to be with me  
Discover a buried treasure  
One map to ecstasy

One time to come on the stage  
One chance to make a wish  
One time to be amazed  
One crack at being rich

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

What would you do if you had Mr. Biggs and me?  
Take you out on a night for winin' and dinin'  
We can hit a club first, sippin' Cris in VIP  
Radio playin' the remix in the Hummer V

JS in the back of the club low key  
And Black pulls up in a range  
With about three nice honeys

We all got family here, so put your hands up  
To all my thugs in here and put your cups up  
We got the industry on swell, now fire the weed up  
The pied piper's in control

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?

Tell me girl, what would you do?  
What would you do? What would you do?  
What would you do? What would you do?
