

# Who Loves You Better

The Isley Brothers

Some say you're too easy  
'Cause you stay by my side  
I'm the one who keeps you happy  
And you keep me satisfied  
Just be my lady  
That will be enough for me  
And it won't matter baby  
What your friends think they see

Who loves you better than I do  
Who knows you better than I do

Every day that passes by  
Every night I spend with you  
Puzzled by the things you try  
Saddened by the things you do  
He can say sweet things to you  
And promise you security  
I find strength in loving you  
Don't fight my love give in to me

Who loves you better than I do  
Who knows you better than I do

You know you can't live your life  
Doin' what the others do  
Always takin' their advice  
May not be the best for you  
Just be my lady  
And that will be enough for me  
And it won't matter baby  
What your friends think they see

Who loves you better than I do  
Who knows you better than I do
