

Who Loves You Better

The Isley Brothers

Some say you're too easy
'Cause you stay by my side
I'm the one who keeps you happy
And you keep me satisfied
Just be my lady
That will be enough for me
And it won't matter baby
What your friends think they see

Who loves you better than I do
Who knows you better than I do

Every day that passes by
Every night I spend with you
Puzzled by the things you try
Saddened by the things you do
He can say sweet things to you
And promise you security
I find strength in loving you
Don't fight my love give in to me

Who loves you better than I do
Who knows you better than I do

You know you can't live your life
Doin' what the others do
Always takin' their advice
May not be the best for you
Just be my lady
And that will be enough for me
And it won't matter baby
What your friends think they see

Who loves you better than I do
Who knows you better than I do
