

You're Beside Me

The Isley Brothers

No, I'm not alone
Don't think I want to be gone
Cause my thoughts always stay with you
There's no need to be sad
You know where my head is at
And my heart always stays with you
When I feel kind of lonely
When I need a reason to smile

You're beside me, everywhere I go
Most of all you stayed in my mind
You're beside me, I'm there with you
I'm feeling all the things that you do

Seeing you in my mind
Gonna bring you closer
Even though you're not around
Living every day I can see
I'm gonna have my share of ups and downs
When I feel kinda lonely
When I need a reason to smile

You're beside me, everywhere I go
Most of all you stay in my mind
You're beside me, you're everywhere
Here with me wherever I go

Everywhere I go...
I like the way you give that good-time feeling
Everywhere I go...
Right now you know the way you've got me feeling

No, you're not alone
Don't think I want to gone
Cause my thoughts always stay with you
There's no need to be sad
You know where my head is at
And my heart always stays with you
When I feel kinda lonely
When I need a reason to smile

You're beside me, you're everywhere I go
Most of all you stay in my mind
You're beside me, you're everywhere
Here with me wherever I go

Everywhere I go...
I like the way you give that good-time feeling
Everywhere I go...
Right now you know the way you've got me feeling
Everywhere I go...
Honey, I like the way you give that good-time feeling
Everywhere I go...
Right now you know the way you've got me feeling

You're beside me, everywhere I go
Most of all you stay in my mind

You're beside me, everywhere
Here with me wherever I go

You're beside me, everywhere I go
Most of all you stay in my mind
You're beside me, you're everywhere
Here with me wherever I go
