

# You Walk Your Way

The Isley Brothers

You'd been dreaming away  
But it's time to leave love  
And finally gone  
Oh but don't get me wrong

And I'm drifting away  
In the years we thought would never end  
Let's pray they'll come again

Well, after all this time it took for us to grow  
There's no sign of love right now you know  
So you walk your way  
Let me walk mine  
You walk your way  
Let me walk mine

Cuz I'm used to planning my days  
But it's time I stopped including you  
Oh won't you be blue

Cuz although I'm walking away  
There's just one wish in mind to meet again  
And we will my friend

Said after all this time it took for us to grow  
There's no love between us, girl, you know  
So you walk your way  
Let me walk mine  
You walk your way  
And I'll walk mine

After all this time it took for us to grow  
There's no love between us, girl, you know  
So you walk your way  
Let me walk mine  
You walk your way  
And I'll walk mine

And we'll meet again  
We will my friend  
And things will be much better then

You walk your way  
Let me walk mine

You walk your way  
Let me walk mine

You walk your way  
Let me walk mine
